PROFILE

UI/UX/Product/Graphic Designer with 3-years of experience in design and digital product strategy. I work with a passion for each website or application project with a strong focus on usability. I can help effectively combine business strategies and vision by meaningful, effective design and crafted solutions.

EXPERIENCE

Graphic and UI Designer at Synergistlab 2018 – 2020

Inspiring by the principles of modernist and minimalist styles in design, my approach is simple and direct, displaying clean and functional design. My goal is to create products that balance beauty, simplicity and practicality.

Graphic and UI/UX Designer at Devbatch 2020 – 2021

I create designs for sites, landing pages, emails, logos, corporate designs, mobile app designs (with strict accordance to platform specific design guidelines). Clear naming and layering of design sources will make any developer happy.
